Wholesale Trade List

SPRING 1963

★ OUR GUARANTEE

All items are guaranteed to be true to name and of the size and age indicated. We have been growers of lining out stock for 95 years and consider our host of old and new customers our greatest asset. We always strive to please and do not consider any deal complete until our customer is satisfied in every respect.

★ TERMS

Cash in full with order earns 3% discount. Boxing and baling will be charged at actual cost only. Cash customers will be billed for boxing after shipment.

★ TO ESTABLISHED CREDIT

1%—10 days from date of invoice. All accounts due 30 days from date of invoice.

★ RATES

25 of same size and variety earns 100 rates, 250 of same size and variety earns 1000 rates. If less than 25 trees of same size and variety are ordered, add 25% to 100 rate.

★ CASH DISCOUNTS

When cash in full accompanies the order and order is received previous to April 1 for spring shipping season or previous to September 1 for fall shipping season, then we will allow 3% cash discount. If the trees are picked up here at the nursery during the shipping season and paid for in full at time of pick up, then we will allow 2% cash discount. If the invoice is paid within ten days from date of invoice our new policy will be to allow 1% discount. Net 30 days.

LONG DISTANCE PHONES—

Pioneer 3-4920
3-5320

Evergreen Nursery Co.

Sturgeon Bay, Wisconsin

— Est. 1864 —

WISCONSIN'S LARGEST
WHOLESALE NURSERY

LINING OUT STOCK

ONE OR A MILLION!!

EXPLANATION — PLEASE NOTE!

After each item 2 or 3 yr. sdlgs. indicates the age of the tree and 'sdlg' indicates seedlings, such as 1 yr. sdlgs. means one year seedlings, 2 yr. sdlgs. indicates 2 year seedlings. Each 'X' after an item in transplanted, XX is twice transplanted.

ARBOR VITAE

TECHNY DARK GREEN ARBOR VITAE —

(Thuya occ. var. Techny)

This variety was selected by Mission Gardens of Techny, Illinois. We have never seen a better dark green. We now have it in the hands of hundreds of our customers all over the Middle West and in many eastern, western and southern states, and have NEVER had a report of it winter-burning or changing color. Really stays dark green all winter. Our stock is genuine and from the original plants. Try it, you will like them.

TECHNY DARK GREEN ARBOR VITAE

AMERICAN ARBOR VITAE —

(*Thuya occidentalis*)

Our strain is grown from seed collected from upland specimen trees selected by ourselves for their graceful beauty, color and stature. Unsurpassed for windbreaks, group plantings, reforestation and no better or more economical hedge evergreen has ever been found.

	<u>100</u>	<u>1000</u>

*The 12-18 in. 4 yr. seedlings are root pruned and heavy.

Larger sizes available for screen work. 250 trees of same size and variety at 1000 rates.

PYRAMIDAL ARBOR VITAE —

(*Thuya occ. pyramidalis*)

There seems to be many strains of pyramidal arbor vitae. After many years of selection we now have a strain identified by a softer more dense foliage, and a uniform pyramidal habit of growth. You will like them.

6-9 in. X -----	35.00	300.00

PROPER WATERING, FERTILIZING, AND GOOD CARE MEANS QUALITY PLANTING STOCK.

SIBERIAN ARBOR VITAE —

(*Thuya occ. wareana*)

As the name implies, it is one of the most robust of this family with rugged constitution — thriving where others may fail. The foliage is dark green and the tree conical in type. The branches are short and stiff and is a rather slow-grower.

	100	1000
6-9 in. X -----	45.00	350.00
9-12 in. XX -----	65.00	
12-18 in. XX S & H -----	85.00	

WOODWARDS GLOBE ARBOR VITAE —

(*Thuya occ. woodwardi*)

The true woodwards strain of globe arbor vitae maintains its dense globe shape with little or no shearing. Foliage is a pleasing sea-green color.

4-6 in. X -----	35.00	250.00
6-9 in. X -----	40.00	350.00

Note: When any item is followed by S&H, it means that grade has been sheared and is heavy. If you wish a further selection from this grade of plants suitable for potting and immediate retail sales write for quotation.

FIR

BALSAM FIR —

(*Abies balsamiae*)

An old timer, but has come into great demand in recent years for Christmas trees. It's delightful aromatic fragrance coupled with its needle retaining quality, characteristic of all firs, has always marked the balsam as the traditional Christmas tree. Nothing wrong with it as a landscape ornamental either.

	100	1000
2-4 in. 2 yr. sdlg. -----	5.50	27.50
4-7 in. X -----	17.00	90.00

CONCOLOR FIR —

(*Abies concolor*)

This is the aristocrat of all fir. Its typical fir odor is the strongest and most aromatic of any fir. Also very desirable as an ornamental, equal in demand to Colorado blue spruce. The concolor fir also commands top price as a Christmas tree. Needles are charmingly long and many have the bluish cast found on colorado blue spruce. A very desirable tree.

3-6 in. 2 yr. sdlg. -----	8.00	40.00
6-9 in. 3 yr. sdlg. -----	12.00	
2-4 in. X -----	14.00	70.00
** 4-6 in. X -----	19.00	95.00
** 6-10 in. X -----	24.00	120.00

DOUGLAS FIR —

(*Pseudotsuga taxifolia*)

A widely grown fir, valuable as an ornamental, for reforestation plantings or Christmas trees. An excellent grower, shears well and has all the prime qualities of the fir family.

3-6 in. 2 yr. sdlg. -----	6.00	30.00
6-8 in. 2 yr. sdlg. -----	8.00	40.00
4-6 in. X -----	14.00	70.00

JUNIPER

ANDORRA JUNIPER —

(*Juniperus C. Dep. plumosa*)

One of the finest of the low growing evergreens. Seldom grows more than 15-18 inches high. Fall color reddish bronze. Ideal for ground cover under low windows and also as a container plant.

	100	1000
4-6 in. X -----	30.00	250.00
6-9 in. X -----	40.00	350.00
9-12 in. X -----	50.00	400.00
12-15 in. XX S & H -----	75.00	

HETZI JUNIPER —

(*Juniperus chinensis hetzi*)

Sometimes erroneously called blue pfitzer. Grows and looks like a pfitzer juniper except the foliage is more bluish and lighter colored. Also a faster and more upright grower than pfitzers juniper.

4-6 in. X -----	30.00	250.00
6-9 in. X -----	35.00	300.00
** 9-12 in. X -----	40.00	350.00
** 12-18 in. X -----	45.00	400.00
** 10-12 in XX S & H -----	60.00	500.00
** 12-15 in. XX S & H -----	75.00	650.00

PFITZERS JUNIPER —

(*Juniprus chin. pfitzer*)

This evergreen needs no introduction as it is probably one of the most popular of all evergreen ornamentals, and certainly the most used spreading type. Will grow well almost everywhere.

We are proud of our pfitzers juniper. Our method of rooting produces a mass of roots up the entire stem, not just at the base. This characteristic continues into the transplant.

4-6 in. X -----	30.00	250.00
6-9 in. X -----	35.00	300.00
9-12 in. X -----	40.00	350.00
10-12 in. XX S & H -----	60.00	500.00
** 12-15 in. XX S & H -----	75.00	650.00

S & H means sheared and heavy

SAVIN VON EHROH —

(*Juniperus sabina von ehron*)

Darker green than savin and grows faster. An excellent spreader. Shears readily into an attractive ball and is more resistant to blight than regular Savin Juniper.

	100	1000
4-6 in. X -----	30.00	
6-9 in. X -----	35.00	

RED CEDAR —

(*Juniperus virginiana*)

This is the basic upright juniper from which many selections have been made over the years. Also used extensively as an understock for grafting junipers. Upright and conical in growth developing rather rapidly.

	100	1000
2-4 in. 1 yr. sdlgs. -----	3.00	15.00
4-6 in. 2 yr. sdlgs. -----	5.00	25.00
6-10 in. 2 yr. sdlgs. -----	7.00	35.00

LARCH

EUROPEAN LARCH —

(*Larix decidua*)

An almost forgotten evergreen and whose merits are sadly neglected. One of the most graceful and attractive of all conifers, as well as one of the fastest growing. Four to five feet per year is not uncommon. Transplants well, but is imperative it be done before growth starts which is early. A tree that will kindle a lot of favorable comments from your customers.

6-9 in. 2 yr. sdlgs. -----	10.00
9-12 in. 2 yr. sdlgs. -----	15.00

These larch grow so fast, we find we have a surplus of the following grades now being offered at a big reduction. A good chance to get this valuable tree in larger sizes and at a low cost.

3-4 ft. X -----	45.00
-----------------	-------

JAPANESE LARCH —

(*Larix leptoleptis*)

Has all the pleasing characteristics of the European Larch plus more. The bark is an attractive warm brown, showing an interesting pattern as it scales off in narrow strips. The most handsome of all larches and a more rapid grower than even the European.

6-9 in. X -----	20.00	100.00
9-12 in. X -----	25.00	150.00
4-5 ft. XX -----	75.00	

We are proud of all our stock, but those items marked with ****** are extra nice. They are plants that would more than please you.

Evergreen Nursery Co.

PINE

AUSTRIAN PINE —

(*Pinus nigra*)

A hardy European variety that is widely planted in this country. Long grayish-green needles and dark gray-bark — very attractive. An excellent ornamental. One of the few evergreens that will thrive under smoky metropolitan conditions.

	<u>100</u>	<u>1000</u>
3-5 in. 2 yr. sdlgs. -----	5.00	25.00
6-9 in. 3 yr. sdlgs. -----	9.00	45.00
4-6 in. X -----	10.00	50.00
6-9 in. X -----	15.00	75.00
9-12 in. X -----	20.00	100.00
12-15 in. X -----	30.00	
18-24 in. XX -----	50.00	
2-3 ft. XX -----	65.00	
12-18 in. XX S & H -----	45.00	
18-24 in. XX S & H -----	65.00	
2-3 ft. XX S & H -----	80.00	

MONTANA MUGHO PINE —

(*Pinus montana mughus*)

Much faster and larger growing than our true dwarf type, and of course not so compact but can easily be made up by normal shearing practices. It will make up 50% faster than a dwarf mugho.

2-3 in 2 yr. sdlgs. -----	6.00	30.00
6-9 in. X -----	30.00	
9-12 in. X -----	40.00	
9-12 in. XX -----	60.00	

Sheared and heavy (S&H) Austrian Pine on left. Pfitzers Juniper right

DWARF MUGHO PINE —

(*Pinus mugo mughus*)

This is the true dwarf type, grown from selected imported seed.

	100	1000
2-4 in. X -----	20.00	110.00
4-6 in. X -----	30.00	195.00
6-9 in. X -----	45.00	350.00

NORWAY OR RED PINE —

(*Pinus resinosa*)

A popular pine native of Great Lakes section. Needles 4-6 inches long, dark green and lustrous. Grows to 75-150 feet and somewhat pyramidal in habit. Originally a timber tree but is being used more as an ornamental as well as a Christmas tree.

	100	1000
2-4 in. 2 yr. sdlgs. -----	4.00	20.00
4-6 in. X -----	9.00	50.00
6-9 in. X -----	12.00	65.00
9-12 in. X -----	15.00	80.00
12-15 in. X -----	18.00	
12-15 in. XX -----	35.00	300.00

SCOTCH PINE —

(*Pinus sylvestris*)

One of the most profitable and popular pines for Christmas trees. Grows fast, shears well, a salable Christmas tree in a minimum of time. Needles short 2-4 inches bluish green. We can supply the French Dark Green strain, most desirable for Christmas trees. Its reddish bark and excellent stem character makes it a desirable ornamental.

8-10 in. 3 yr. sdlgs. -----	6.00	40.00
4-8 in. X -----	9.00	50.00
9-12 in. X -----	12.00	65.00
** 12-18 in. X -----	15.00	80.00
18-24 in. X -----	24.00	120.00
2-3 ft. -----	30.00	150.00

Note: The European Shoot Moth which attacks all pine is distressing some areas. It is now widespread throughout most of the country. However, we have for several years carried on a comprehensive preventative spray program on all the pine we grow. The Wisconsin State Inspection officials have never found shoot moth on any of our lining out pines, and we propose to keep it that way.

Good facilities and good care
produces quality trees

BULL OR WESTERN PINE —

(*Pinus ponderosa*)

One of the most important pines in the Western states. A good timber tree and an excellent ornamental. Needles dark green, 5-10 in. long. Grows to 150 feet and over. Also ideal as a long-needed Christmas tree. Makes excellent table top Christmas trees.

	100	1000
3-6 in. 2 yr. sdls. -----	5.00	25.00
6-9 in. 3 yr. sdls. -----	6.00	30.00

COLORADO BLUE SPRUCE —

(*Picea pungens glauca*)

We are justly proud of our Colorado Blue Spruce in all sizes. We pay a premium for select seed and have been growing it long enough from the same source to know we are getting what we are paying for — a better strain of Colorado Blue Spruce, which will run a higher percentage of blue trees. Ours will average from 20-30%.

2-4 in. 2 yr. sdlgs. -----	3.00	25.00

TSUGA

TSUGA CANADENSIS —

(Canadian Hemlock)

Tall growing graceful evergreen with slender horizontal branches. Hardy, but does prefer protection from winter winds and sun. Excellent for shady spots.

	100	1000
3-6 in. 2 yr. sdlg. -----	9.50	50.00

TAXUS

SPREADING YEW —

(Taxus cuspidata)

The most popular of the spreading yew. Branches well from the bottom. Generally grows more wider than tall. One of the most used varieties of Taxus for foundation plantings.

	100	1000
4-6 in. X -----	30.00	250.00
6-9 in. X -----	35.00	300.00
** 9-12 in. X -----	40.00	350.00
12-18 in. X -----	50.00	450.00
9-12 in. XX -----	55.00	

UPRIGHT YEW —

(Taxus cuspidata capitata)

This is the only yew best grown from seed. Pyramidal in habit of growth with a broad base. Stands shearing well.

3-6 in. 2 yr. sdlg. -----	12.00	60.00
2-4 in. X -----	20.00	100.00
4-6 in. X -----	25.00	150.00
6-9 in. X -----	30.00	200.00

BROWNS YEW —

(Taxus media browni)

One of the most versatile taxus. It can be easily sheared to less than 18 inches or will grow to 6 or more feet. Does well in both sun and shade. Dark green foliage.

4-6 in. X -----	30.00	250.00
6-9 in. X -----	40.00	350.00
9-12 in. X -----	60.00	

Note: When any item is followed by S&H, it means that grade has been sheared and is heavy. If you wish a further selection from this grade of plants suitable for potting and immediate retail sales write for quotation.

Evergreen Nursery Co., Sturgeon Bay, Wis.

— Est. 1864 —

DENSIFORMIS YEW —

(*Taxus cuspidata densiformis*)

A dense form of the spreading *taxus cuspidata*. Requires less shearing.

	100	1000
4-6 in. X -----	35.00	300.00
6-9 in. X -----	40.00	350.00
9-12 in. X -----	50.00	

DWARF SPREADING YEW —

(*Taxus cuspidata nana*)

The best of the dwarf yews. Very slow growing with heavy dark green foliage. Perfect for spots where it is important to keep size of plant to a minimum.

4-6 in. X -----	40.00
-----------------	-------

HATFIELD YEW —

(*Taxus media hatfield*)

A very interesting yew. Its growing habits produce a tree that is a trifle wider at the top than at the bottom, giving a slight vase form. A bushy heavy grower.

4-6 in. X -----	30.00	250.00
** 6-9 in. X -----	40.00	350.00
9-12 in. X -----	50.00	450.00

HICKS YEW —

(*Taxus media hicksi*)

A good columnar form with vertical branches. One of the best of the tall growing *taxus*. Rich glossy green foliage with red berries. very hardy.

4-6 in. X -----	30.00	250.00
** 6-9 in. X -----	35.00	300.00
** 9-12 in. X -----	40.00	350.00
12-18 in. X -----	50.00	

HILLS PYRAMIDAL YEW —

(*Taxus pyramidalis hilli*)

An old timer, but still an excellent yew for an upright type. Excellent for hedges.

4-6 in. X -----	30.00	250.00
6-9 in. X -----	35.00	300.00
9-12 in. X -----	40.00	350.00

INTERMEDIATE YEW —

(*Taxus intermedia*)

Similar to *cuspidata*, but grows a little more upright than *cuspidata*.

4-6 in. X -----	35.00	300.00
6-9 in. X -----	40.00	350.00
9-12 in. X -----	45.00	

ROOTED CUTTINGS

ROOTED CUTTINGS —

Because of special treatment previous to rooting, we are able to produce rooted cuttings with roots well up the stem and not just on top. Our rooted cuttings thrive and live. See photo below.

	100	1000

Some folks like to have their evergreens potted so they may be safely field planted in early summer after their spring rush is over. Write us if you would like some put in peat pots for you.

PFITZER JUNIPER

Before and after rooting. Cuttings rooted like this is what it takes to produce money-making liners.

Evergreen Nursery Co.

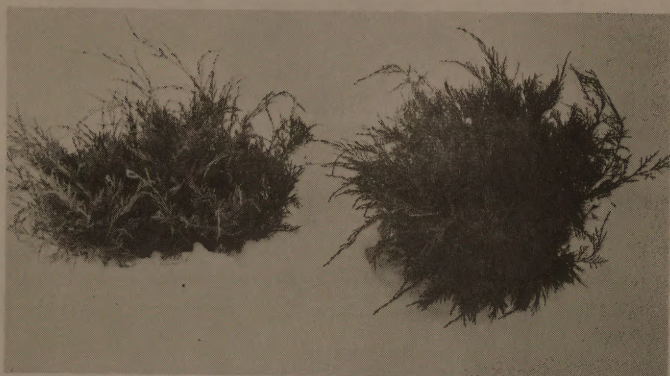

Sturgeon Bay, Wisconsin

— Est. 1864 —

EVERGREENS TO POT FOR IMMEDIATE RESALE

If you are in need of evergreens of good quality, heavy, and suitable for potting for immediate resale, we can select a special grade for this purpose from any items marked S&H. Write us.

Note: When any item is followed by S&H, it means that grade has been sheared and is heavy. If you wish a further selection from this grade of plants suitable for potting and immediate retail sales write for quotation.

When we say Sheared & Heavy (S&H) this is what we mean. Hetzi Juniper on left, Pfitzers on right.

UNDERSTOCKS

We specialize in the production of quality understocks. Every tree is carefully graded for caliper (3/16 to 1/4 in.) and for straight clean stems. Can supply *Juniperus virginiana*, American Arbor Vitae and Norway Spruce. Also several varieties of pine if you are grafting pine.

Pot your spruce and pine understocks in the spring for best results.

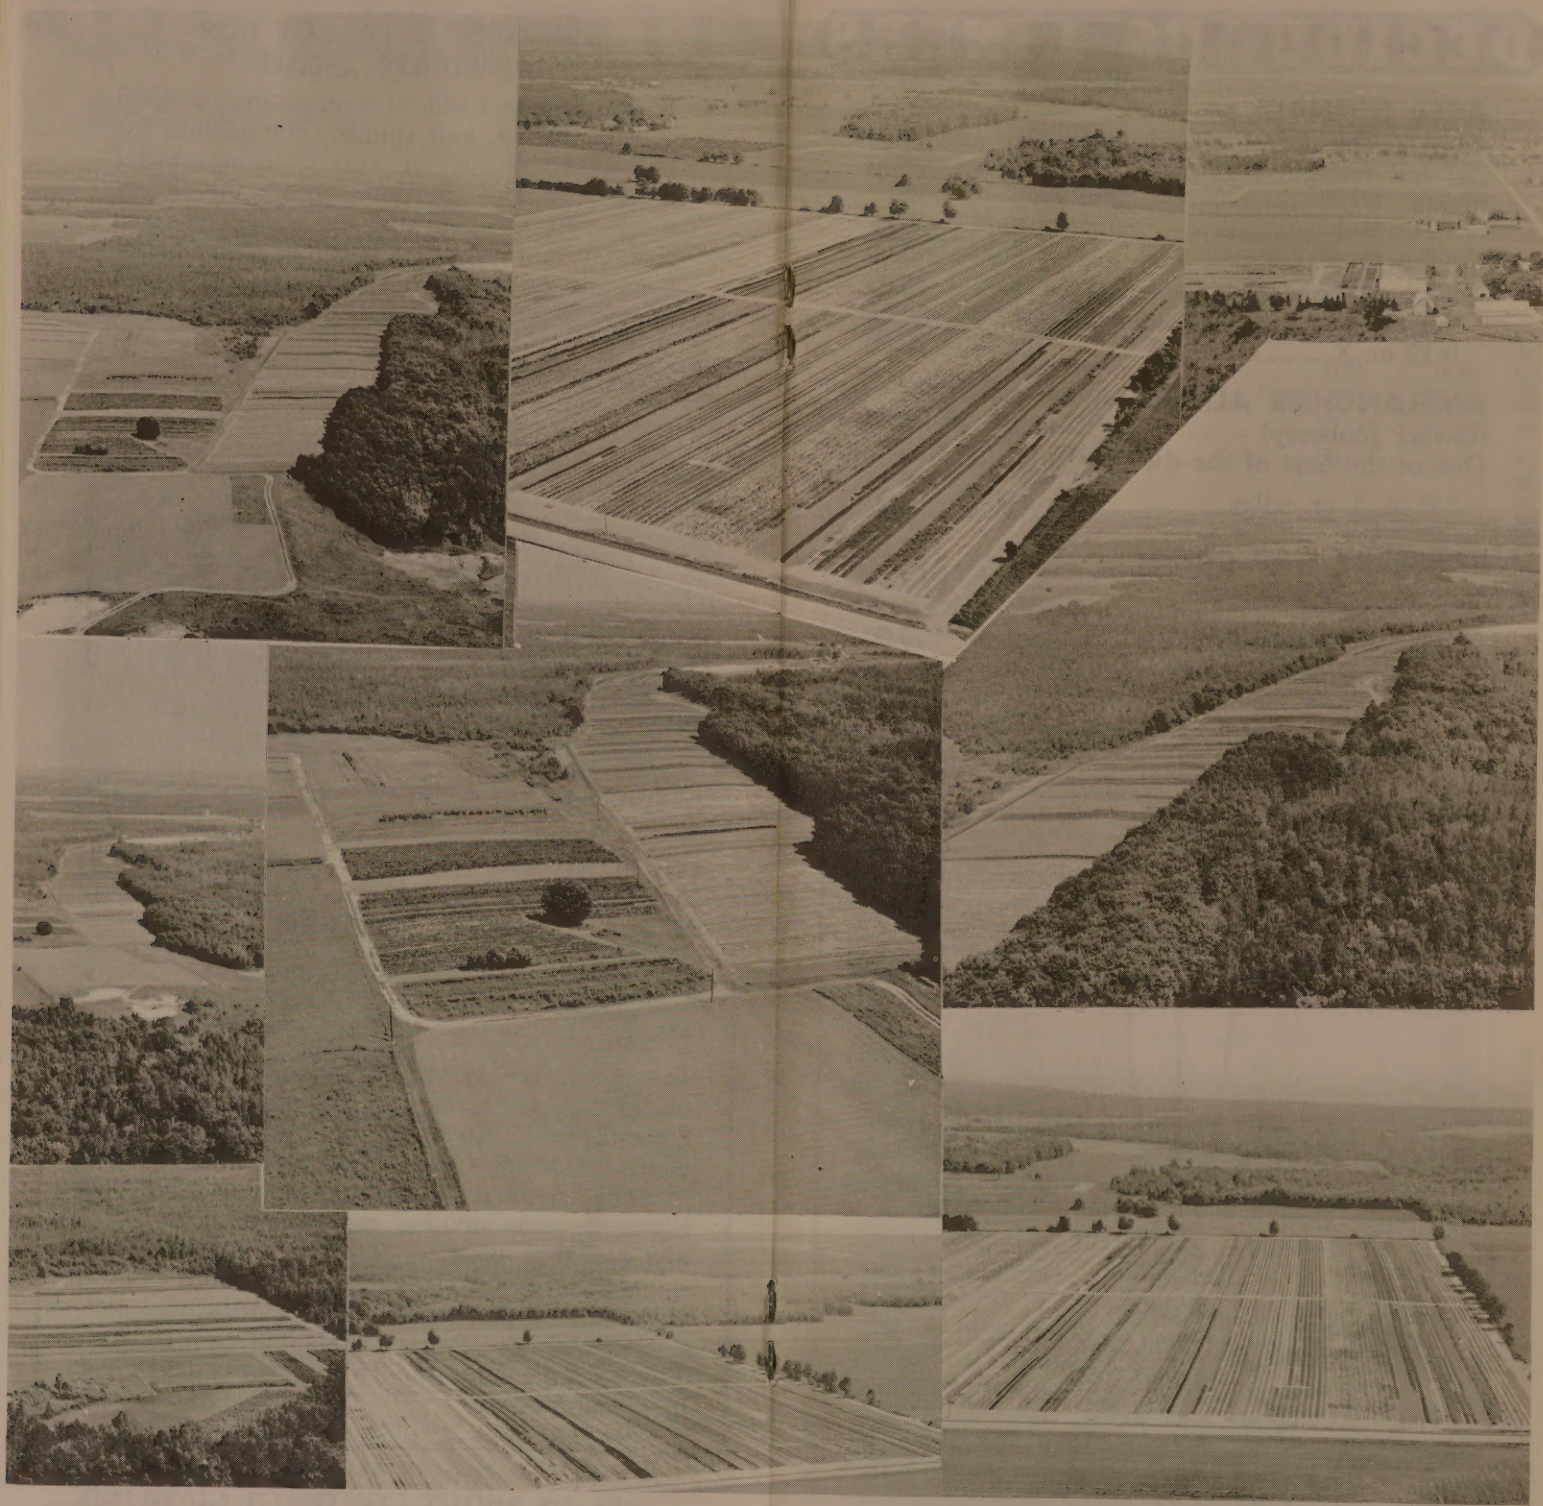

\$15.00 per 100

\$100.00 per 1000

You haven't seen good understocks until you have used ours.

9-12 in. 2 yr. sdlgs. -----	19.00	95.00

BIRCH, WHITE —

Betula papyrifera

Most birch on the market today are collected. Ours are **Nursery Grown Transplants**. We collect our own seed from select specimens, and germinate the seed under controlled conditions. The little seedlings are transplanted to the field. Here under an intensive watering and feeding program, we have produced trees three to four feet in one year. They are superb plants. Comments on these **BIRCH** country wide are fabulous! See actual photo on left.

BUT SORRY!

In spite of a greatly increased production schedule for this year, we are now sold out on all clumps for this spring. Many of our customers who were unable to get our clumps last spring, placed their order then for this year. If you want some clumps for this fall (1963) or next spring (1964), better order now. We are booking at these prices.

3 stem clumps	10	100
12-18 in. 1 yr. transplants	\$ 9.00	45.00

YOUR EVERGREEN NEEDS. BIG SAV-
INGS EFFECTED!**

Evergreen Nursery Co., Sturgeon Bay, Wis.

— Est. 1864 —

NINEBARK - DWARF —

(*Physocarpus opulifolius nana*)

Dwarf form. A heavy grower making an excellent specimen plant or an attractive hedge. Shears very well and recognized as one of the best hedge plants. Attractive foliage and flowers in June, followed by showy red pods.

	<u>100</u>	<u>1000</u>
6-9 in. X -----	8.00	
12-18 in. X multistem -----	20.00	120.00
18-24 in. X heavy -----	25.00	
2-3 ft. X heavy -----	30.00	

QUINCE, JAP. FLOWERING —

(*Chaenomeles lagenaria*)

Attractive red flowers in early summer. Also a good hedge plant.

6-9 in 2 yr. sdlgs. -----	7.00	35.00
9-12 in. 2 yr. sdlgs. -----	9.00	45.00
12-18 in. 2 yr. sdlgs. -----	12.00	60.00

QUINCE, DWARF FLOWERING —

(*Chaenomeles lagenaria pygmy*)

Excellent dwarf flowering shrub. Blooms at same time as regular quince. Fills today's need for a good dwarf shrub.

3-6 in. 1 yr. sdlgs. -----	7.00	35.00
6-9 in. 1 yr. sdlgs. -----	9.00	45.00

RUSSIAN OLIVE —

(*Eleagnus angustifolia*)

A sturdy, hardy large shrub or small tree. Silvery leaves and fragrant flowers with silvery yellow fruit in fall. An excellent background or specimen plant.

3-6 in. 1 yr. sdlgs. -----	4.00	20.00
6-9 in. 1 yr. sdlgs. -----	5.00	25.00
12-18 in. 2 yr. sdlgs. -----	8.00	

SORBUS AUCUPARIA —

(European Mountainash)

One of the best of the small fruiting trees. Very showy in fall with huge clusters orange red berries.

6-9 in. 2 yr. sdlgs. -----	8.00
9-12 in. 2 yr. sdlgs. -----	10.00

SHEPHERDIA ARGENTEA —

(Buffalo berry)

An upright tall growing shrub reaching 15-18 feet. Silvery foliage. Tough and hardy making it ideal for screening undesirable views.

2-3 feet, 3 yr. sdlgs. -----	20.00	100.00
------------------------------	-------	--------

Cash With Order Earns 3% Discount

TILIA CORDATA —

(European small leaf linden)

Commonly known as basswood. The European variety has small leaves and one of our most desirable shade trees today. Rapid grower and very hardy.

	<u>100</u>	<u>1000</u>
4-6 in. X -----	6.00	30.00
6-9 in. X -----	10.00	60.00
9-12 in. X -----	14.00	80.00
12-18 in. X -----	20.00	

VIBURNUM DENTATUM —

(Arrowwood)

An attractive upright bushy growing viburnum. Good foliage all summer. Shiny dark blue berries in fall. In universal demand in the landscape trade.

3-6 in. 1 yr. sdlgs. -----	7.00	35.00
----------------------------	------	-------

VIBURNUM LANTANA —

(Wayfaring tree)

Large heavy deep green leaves. Dense grower making an excellent screen plant. Berries in fall red, later turning jet black.

3-6 in. 1 yr. sdlgs. -----	6.00	30.00
6-9 in. 2 yr. sdlgs. -----	7.00	40.00
9-12 in. 2 yr. sdlgs. -----	8.00	50.00

VIBURNUM LENTAGO —

(Nannyberry)

Grows to 25-30 feet. White flowers followed by black berries and attractive reddish fall color. Excellent for specimens and borders.

3-6 in. 1 yr. sdlgs. -----	6.00	30.00
----------------------------	------	-------

PRECISION PLANTING

VIBURNUM TRILOBA —

(American highbush cranberry)

One of the best and most desirable of the large growing viburnums. A handsome shrub with attractive flowers, foliage and berries. Large clusters of fruit which begin to turn a brilliant red in late July, hanging on the plant sometimes well into the winter. Foliage becoming increasingly brilliant from late summer throughout the fall. An asset to any planting.

	<u>100</u>	<u>1000</u>
2-4 in. 1 yr. sdlg. -----	6.00	40.00

ZELKOVA SERRATA —

(Japanese Keaki Tree)

Leaves have same appearance as Elm, but this Asiatic tree is free of serious insects and diseases. Grows rapidly and may be grown as either a single or multiple trunk. Makes an excellent lawn or street tree. Rapidly gaining in popularity.

6-9 in. 2 yr. sdlg. -----	14.00	70.00
9-12 in. 2 yr. sdlg. -----	16.00	85.00
12-18 in. 2 yr. sdlg. -----	20.00	120.00

CONTAINER STOCK

— CONTAINER STOCK —

We have been growing container stock for a number of years, and feel we have learned many things about container plants.

1. After considerable observation and experience we came to the conclusion several years ago that plants grown more than one year in containers became pot bound which seriously affected their growth and root spread when transplanted from this container. To remedy this, the majority of our container plants are field grown where the roots have had plenty of room to expand. Some we grow in metal containers in our container nursery for only one growing season, and then transfer them to new Keiding paper mache pots which makes a very merchantable and attractive item.

2. We believe, except in a few cases such as mums, that a 1 gallon container is entirely too small, especially for evergreens. We now put all evergreens in a #8 Keiding paper mache pot, which is approximately 2 gallons. All pots are new, clean and highly merchantable.

3. The old method of using a soil for a potting mix frequently becomes hard and pulls away from the edges of the container unless watered with accurate regularity. We have corrected that by using shredded decomposed bark for a soil mix. It is much lighter than soil, never becomes hard, excess water readily drains away and eliminating the problem of poor drainage. It also furnishes the plant with an abundance of organic matter. The plant grows fabulous roots in this mix.

Taxus spreading	12-15 in.	1.30
Taxuc upright	12-15 in.	1.30

All our container plants have been twice transplanted, and sheared to perfect little specimen plants. They may be planted, pot and all, making it easy for the purchaser. Also each plant has wired to it a yellow tag giving the name of the plant together with planting and cultural instructions.

Our container plants are real money makers for you!

Container plants are difficult to ship common carrier. We have our own truck, completely enclosed fitted with specially designed shelving to efficiently, rapidly and economically transport container stock. A minimum load is 900 and a maximum load is 1100 containers. Many of our customers get together with others nearby and get a full load between them. Also they may be called for at the nursery.

All plants unless otherwise specified are in new #8 Keiding paper mache pots which are approximately 2 gallons in size.

Our many years of experience selling this kind of merchandise has taught us which are the best sellers, and these varieties top the list.

SURPLUS STOCK

SPECIALS

Every nurseryman is confronted with surplus items from time to time. Frequently these items can be used by some one to profitable advantage. We have a few such items, and in order to "clear the decks" we are offering them at a real sacrifice. Possibly you can make some handsome profits on some of these items. Look them over carefully.

AMERICAN ARBOR VITAE —

A real steal! While this is a surplus item with us, it is strictly first class merchandise, growing in nursery rows, and not in beds. They are field grown transplants. Nothing surpasses the American arbor vitae for sheared hedges, group and background plantings and screen work. This tree is unusually free from plant pests and diseases. It is also excellent for woodlots and windbreaks. Also enjoys a good market in the production of cedar fence posts (American arbor vitae is white cedar) You should have some, especially at these prices. In the interest of fast removal and low cost of digging, and hence low cost to you, we are offering them at block run only. They will run well up to this grade, with the majority by far in the upper size.

American arbor vitae -

AM. ARBOR VITAE—

15-30 inch, field grown trans.

\$88.00 per 1000

SURPLUS STOCK

*** PLEASE NOTE – IMPORTANT**

Because of the low prices at which we are offering these trees, and because of their large sizes, we are sure it is obvious that we cannot sell in small quantities nor can we box them for shipment at these prices. Therefore 250 trees is the minimum order, and if wanted boxed for shipment, we will do so at \$15.00 per 1000, or 2c per tree if order is less than 1000. We can also bale them for pick up here at the nursery or for shipment short distances at \$10.00 per 1000 or 1½c per tree in lesser quantities. If you wish to call for them at the nursery with your own truck, we will pack in your truck in bulk at no extra charge. This pertains to all surplus items offered on this sheet.

* Be sure to read boxed notation

WHITE SPRUCE —

These are also in field rows, but are somewhat crowded, and consequently thin. However, they have been root pruned twice, so the roots are good. Likewise the color is excellent. They would be very satisfactory for windbreaks, woodlots, reforestation or Christmas tree plantations. They are just large enough so they would thrive in competition with brush, grasses or weeds. It is also valuable as a timber tree or for pulpwood.

WHITE SPRUCE

18–36 inch, field grown trans.

\$88.00 per 1000

CHARACTER TREES

The demand for unusual, odd shaped and multiple stemmed plants is rapidly increasing. The landscape men use them often and to the great delight of their clients. They call them character plants. We have made a study of this class of plants and have made special selection from our field. These character trees are curved and twisted, forming interesting patterns in landscape plantings. Their use was originally confined to Japanese gardens, but is has expanded to any landscape development. Get in on the ground floor and have this class of stock to offer your customers. Believe us, they will go for it!

MUGHO PINE —

This dwarf evergreen in character plants is especially adapter for Japanese gardens and any Banzai training.

6-9 in. X	\$ 6.50 per 10
9-12 in. XX	8.00 per 10
12-18 in. XX	15.00 per 10

EUROPEAN MOUNTAIN ASH —

This tree in character plants selected for multiple stems and interesting curves.

9-12 in. X	1.75 per 10
12-18 in. X	2.75 per 10
18-24 in. X	3.50 per 10
2-3 ft. X	5.00 per 10
3-4 ft. X	7.00 per 10

JAPANESE LARCH —

The bark on this tree is a warm attractive brown. A very rapid grower and if left to grow undisturbed and unsheared, develops intriguing patterns. Our character plants are selected to give them a good start along this line.

2-3 ft. X	7.00 per 10
3-4 ft. X	9.00 per 10
4-5 ft. X	12.50 per 10

EUROPEAN LARCH —

Similar to Japanese Larch in all habits except grows a little slower and bark is gray. Uninhibited it grows into real character plants.

2-3 ft. X	7.50 per 10
3-4 ft. X	9.50 per 10

Evergreen Nursery Co., Sturgeon Bay, Wis.

CHRISTMAS TREES

Approximately 50 to 60 million Christmas trees are used in this country annually, and the growing of them in commercial plantations is getting to be a very lucrative business. Good planting stock is imperative for success. We grow large quantities for this very purpose and can supply quality trees at reasonable prices. Plant a few acres every year and you will soon have a nice annual income. We would be happy to advise you on soil, cultural practices, etc. Seedlings are often planted for Christmas trees in an attempt to save money. It is false economy. True, seedlings cost less, but as good survival can never be expected from seedlings as from transplanted stock. The few extra cents a good transplant costs brings tremendous dividends in excellent survival. The need for re-planting is eliminated, and full production is obtained from your acreage. Also saleable trees can be grown two to three years sooner than if seedlings were used. The varieties listed next page are the most used for Christmas tree planting.

The sizes on next page have wider variance than the same variety offered elsewhere in this list. By saving cost of grading we can offer them cheaper, and for Christmas tree planting they are equally as good.

NORWAY PINE —

Much longer needles than Scotch Pine and considered by many Christmas tree dealers to be ideal for flocking. Doesn't grow quite as fast as Scotch Pine, but still an excellent grower.

	<u>1000</u>
2 yr. seedlings, 2-4 in.	18.00
3 yr. transplants, 3-7 in.	48.00
4 yr. transplants, 6-14 in.	79.00

PONDEROSA PINE —

Another excellent pine with long needles. Graceful and compact growing. Also an excellent pine for flocking or to sell as a long needled pine.

2 yr. seedlings, 2-5 in.	16.00
3 yr. seedlings, 6-12 in.	28.00
4 yr. transplants, 8-18 in.	75.00

NORWAY SPRUCE —

The fastest growing of all spruce. Will grow about as fast as Scotch Pine.

3 year, 6-12 in. seedlings	26.00
3 year, 4-8 in. transplants	48.00
4 year, 8-14 in. transplants	69.00

WHITE SPRUCE —

The most popular variety of spruce for Christmas tree planting. Grows and shears well. Foliage has a bluish tint.

3 year transplants, 3-7 in. -----	50.00
4 year transplants, 6-14 in. -----	70.00

BALSAM FIR —

The balsam fir is the traditional Christmas tree, and will eventually be the most planted variety. Always has been in top demand on the Christmas tree market, but so few plantation grown trees are available and the wild trees are of poor quality. It's delightful aromatic fragrance and needle retaining characteristics make this variety one of the most desirable of all Christmas trees. Plant now and cash in on this profitable market. Balsam fir planting stock is in short supply country over.

2 yr. seedlings, 2-4 in. -----	25.00
3 year transplants, 3-5 in. -----	60.00
4 year transplants, 4-7 in. -----	90.00

No quantity discount on Balsam Fir

DOUGLAS FIR —

Another good fir with all the prime qualities of the fir family. Shears and grows well. Should be grown in every northern Christmas tree plantation.

2 year seedlings, 3-6 in. -----	25.00
3 year transplants, 3-7 in. -----	58.00
4 year transplants, 6-12 in. -----	90.00

CONCOLOR FIR —

This is the aristocrat of all fir. Its typical fir fragrance is the strongest and most aromatic of all firs. Grows slower than either Balsam or Douglas fir, but has always commanded a top premium price on the Christmas tree market. Needles are soft and charmingly long and many trees have a bluish cast. You will fall in love with this tree.

2 year seedlings, 2-5 in. -----	35.00
3 year transplants, 3-5 in. -----	65.00
4 year transplants, 5-10 in. -----	95.00

QUANTITY DISCOUNTS

1000-2000 -----	List price
2000-5000 -----	5% discount
5000-10,000 -----	8% discount
